

HUX London has been awarded; Ones to Watch in Bespoke Kitchens & Joinery, London 2019

The Design & Build Awards are our way of endorsing and recommending the most promising and best performing firms across all sectors of the architecture, construction building and interior design, and each recipient is hand-picked by our internal team through a strictly merit-based process of research and analysis. This approach ensures that the accolade is given to those who truly deserve it (rather than those who can marshal the most voters), with a level playing field for all, from independent tradespeople to multinational corporations.
