

INTERIOR DESIGN⁵ YEARBOOK 2022

Edited by Alexandra Bushby

Foreword by Angela Bardino, President, BILD

ECLECTIC HERITAGE RENOVATION

This four bedroom Edwardian property in Belsize Park, has been renovated by Zulufish to create a big family space with plenty of light. The clients have African heritage and had collected much loved items of furniture and artwork from years of travel, which became the foundation for the characterful eclectic design they wanted to create. It was key to retain the character and original qualities of the property whilst adding modern touches to ensure it didn't feel old fashioned, so throughout the design pieces have been chosen that juxtaposed the period features such as globe lighting which has been used throughout for cohesion. The bespoke kitchen by HUX features rich velvet blue spray-painted cabinets. The open plan aspect of the design is continued with a custom steel frame hanging display unit, open wine storage and bookshelf to the back of the island.

This project was designed by Zulufish and competed in 2024.
